

Letter of Volatility

Manufacturer: Liteway Inc

Brand	Model Number*	Description
LuxLink	IRGT-1501-x	Fiber optic IRIG transmitter
LuxLink	IRGR-1501-x	Fiber optic IRIG receiver
Litelink Luxlink	ALM-1000	Alarm Module

*note x can be any digit fro 1 to 9

This equipment contains no memory (volatile or nonvolatile).

IRGT-1501-x takes an electrical IRIG signal and coverts it to optical signal. IRGR-1501-x receives that optical signal and converts it back into an electrical IRIG signal. This is a real times system, there are no memory or buffers in the devices.

The ALM-1000 is an alarm module which functions with all Luxlink and Litelink equipment. When receiving an alarm signal from such equipment it will trigger an audible and visual alarm, and an general purpose relay.
